

First of all, inside the box is a treasure and we think it can be money and precious stones, such as rubies, emeralds and diamonds. They also found paintings by celebrities like Picasso. This was found in an excavation by Mitchell Wilson. Some time later, and suspicious of what could be confirmed, archaeologists sold some of the paintings and some stones at auction, becoming very wealthy. Putting it all together there, who also discovered these people there, finally became billionaires.
