

We borrowed the idea from Japan
partnership
the price difference between the capsule
and the hotel is minimal
the idea is to provide a low-cost service
I'm sick of this project - I have had enough
of this project
I cannot say the same for
they did nothing
Why did you not say so earlier?
it relies on the other parties involved
it needs to be clear for everyone involved
the project is financed by the EU
(European Union) 60.000€
at the **end** of the month
